**Ravi shared his testimony. His mother got a heart stroke and became unconscious. He along with his sisters were perturbed and scared. Somehow, he called ambulance. And as they were in the ambulance, the pulse of her mother completely stopped. Everybody in the ambulance started telling them that she passed away. Ravi was discouraged but still he called pastor Karan and they prayed. As soon as they reached the hospital the pulse came back. And she is still alive.**

**Seema shared her testimony that in her work place she shared Gospel with one Patient who was very discouraged and without hope because of his Sickness. She also shared a prayer request in the church to pray for him. And on Monday as she met him again, he was happy and excited as his sickness was totally gone and he was healed.**

**Shivani and her Mother shared their testimony. They were coming to the church on a bicycle and they met with an accident. The Bicycle was totally crushed but God saved them. Shivani just got a minor scratch on her hand and nothing else. God protected her.**

**Now they need a new Bicycle. Please pray.**
